

2010s

David R. Askew, MT '12, has been hired as manager, taxation services at Bober Markey Fedorovich, a national Top 200 CPA and advisory firm. Askew brings more than ten years of both regional and national public accounting firm experience, serving a variety of multi-state companies in taxation including S-corporations, limited liability companies, partnerships, and C-corporations. He also assists clients in individual tax planning and compliance.

Samuel L. Blakeslee, MM '13, is a name to keep in mind as an upcoming, creative, contemporary, and engaging composer, no matter the musical setting.

Jordan M. Clark, BSN '12, a high school tennis coach and personal soccer and wellness coach in Highlands Ranch, Colorado, recently signed to play professional soccer for the FC Vetlanda in Sweden for 2023.

Lindsey M. Colangelo, BSN '11, has been named the chief nursing officer of University Hospital's Ahuja Medical Center in Beachwood effective April 23. Colangelo, a nurse for 11 years, has held various nursing leadership roles at the UH Ahuja Medical Center. Colangelo has been described as an influential nurse with a transformational leadership style. In her new capacity, she will oversee clinical operations and manage process improvements for the facility.

Allison S. Gabriel, MA '10, PhD '13, joined the Mitchell E. Daniels, Jr. School of Business at Purdue University as a Full Professor, and the Thomas J. Howatt Chair in Management.

Margaret Manges, BA '17, recently earned her Ph.D. in counseling psychology from the University of Buffalo in May 2023. Manges was the recipient of the first Doctoral Award of Excellence for her work in research, clinical practice, and

professional commitment during her graduate program. Manges is currently a clinical psychology intern at The Ohio State University.

Kerri L. Shelton Taylor, MS '14, PhD '16, an associate professor at Columbus State University, was among the 18 higher education faculty from throughout Georgia selected as a Governor's Teaching Fellow for the May 2023 symposium. Participating in the symposium follows a highly competitive application and selection process. Shelton Taylor's subject-matter expertise draws multiple areas of chemistry, including organic synthesis, drug efficacy, art restoration, and material science, all of which have led to strengthening her synthetic skills and increasing her chemical knowledge as an educator and researcher.

Chad M. Warrick, BAE '12, recently accepted the Director of Fraternity and Sorority Life role at the University of Iowa where he will lead the office, staff, and community of almost 4,000 members to live their values and progress forward the fraternal movement.
