

Donald Dane Quinn

quinn@uakron.edu

Office Address

Department of Mechanical Engineering
The University of Akron
Akron, OH 44325-3903
(330) 972-6302

Home Address

2389 Amesbury Rd.
Akron, OH 44313
(330) 865-8131

Academic Employment

Professor, Department of Mechanical Engineering

The University of Akron, Akron, Ohio USA, *Fall 2009–present*

Associate Professor, Department of Mechanical Engineering

The University of Akron, Akron, Ohio, *Fall 2001–Fall 2009*

Assistant Professor, Department of Mechanical Engineering

The University of Akron, Akron, Ohio, *Fall 1995–Fall 2001*

Associate Dean for Undergraduate Research, Williams Honors College

The University of Akron, Akron, Ohio, *Spring 2018–present*

Interim Assistant Dean of Research, College of Engineering

The University of Akron, Akron, Ohio, *Summer 2007–Fall 2009*

Education

Ph.D. Cornell University, Ithaca, New York; August 1995.

Major: Theoretical and Applied Mechanics.

Minor: Applied Math.

Dissertation Title: Resonance Capture in Dynamical Systems (under the advisement of Prof. Richard Rand).

B.M.E. *with highest honor*; Georgia Institute of Technology, Atlanta, Georgia; June 1991.

Major: Mechanical Engineering.

Research Interests

My research interests lie in the area of applied dynamical systems and mechanics. Specifically, I have considered the effects of resonances in nonlinear systems with applications to rotordynamics, spacecraft dynamics, and the mechanisms by which energy is transferred through mechanical systems. This work has recently been extended into the area of vibration-based energy harvesting and passive damping in structural systems. Since joining the University of Akron, I have initiated studies of adaptive optical systems, differential collision models, research into structural health monitoring, and the mechanics of nano-scale structures such as graphene sheets and nanotubes. I am currently collaborating with researchers at Sandia National Laboratories in the area of structural dynamics, modeling the dynamic response and structural dissipation induced by mechanical interfaces such as lap joints and bolted connections. In addition, I have ongoing collaborative research in the area of micro-electro-mechanical systems studying the dynamics of very large arrays of coupled resonators. Finally, I have worked in several related areas, including the modeling, simulation, and control of thermo-acoustic instabilities in aeropropulsion systems, celestial mechanics, nonlinear thermoelastodynamics, nonlinear control systems, and the evolution of virulence in age-dependent populations.

- Fariya Raman, in progress (expected 2017).

Teaching and Engineering Experience

08/1995–present: Department of Mechanical Engineering, The University of Akron, Akron, OH.

- ME 730—*Vibration of Continuous Systems*: Analysis of continuous vibrating systems, using separation of variables, energy, variational, Rayleigh-Ritz and other approximate techniques. Concepts and solutions of integral equations as applied to continuous systems.
- ME 726—*Nonlinear Continuum Mechanics*: Finite deformation and strain, stress, constitutive equations, strain energy functions. Solution of finite deformation problems in hypoelasticity, coupled thermo-viscoelasticity and plasticity, electro-elasticity and micro-polar theories.
- ME 696—*Advanced Dynamics*: Formulation of equations of motion for rigid body dynamics with linear and angular momentum balance, variational principles, Lagrange’s equations, and Kane’s method. Holonomic and non-holonomic constraints. Computational solutions of nonlinear algebraic and differential equations governing the response of multi-degree-of-freedom systems.

- ME 630—*Vibration of Discrete Systems*: vibrations in finite dimensional systems, including single- and multi-degree-of-freedom systems. Analytical mechanics, free and forced vibrations, damped and transient response, normal mode vibrations, nonlinear systems.
- ME 629—*Nonlinear Engineering Problems*: Study of nonlinear ordinary and partial differential equations governing phenomena of mechanics. Analysis of phase space trajectories, singularities and stability. Development of approximate analytical methods.
- ME 441/541—*Control Systems Design*: Methods of feedback control design such as minimized error, root-locus, frequency domain. Compensation techniques. Multivariable and nonlinear design methods and computer-aided control design.
- ME 431/531—*Fundamentals of Mechanical Vibrations*: Forced and free response of one and two degree-of-freedom systems.
- ME 340—*System Dynamics and Response*: A unified approach to modeling, analysis, response, and stability of engineering systems.
- ME 321—*Kinematics of Machines*: Displacements, velocities, accelerations and introduction to forces in plane motion mechanisms. Introduction to design of gears, gear trains, cams, and the synthesis of mechanisms.
- ME 203—*Dynamics*: Kinematics and kinetics of particles and rigid bodies. Principles of work, energy, momentum and impulse.

07/1995–08/1995: Department of Mechanical Engineering, Cornell University, Ithaca, NY.

- M&AE 326—*System Dynamics*: Dynamic behavior of mechanical systems; modeling, analysis techniques, and applications. Vibrations of single- and multi-degree-of-freedom systems. Feedback control systems, stability analysis.

Professional Associations and Activities

- American Society of Mechanical Engineers
- American Society for Engineering Education
- Society for Industrial and Applied Mathematics
- Invited Participant, *3rd Workshop on Joints Modelling*, Dartington Hall, Totnes, Devon, UK, October 18–21, 2015
- Invited Participant, *3rd Workshop on Joints Modelling*, Chicago, IL, August 16–17, 2012
- Invited Participant, *Tri-Service Workshop on Mechanical Energy Harvesting*, Virginia Tech, Blacksburg, VA, August 12–13, 2009
- Invited Participant, *2nd Workshop on Joints Modelling*, Dartington Hall, Totnes, Devon, UK, April 26–29, 2009
- Invited Participant, *Duke University Workshop on Nonlinear Vibration*, Durham, NC, June 06, 2008.
- Invited Participant, *NSF/Sandia Workshop on Joint Mechanics*, Washington, D.C., October 16–18, 2006.
- Invited Participant, *2nd Contact Mechanics Workshop*, sponsored by AFOSR and Sandia National Labs, West Palm Beach, FL, May 12–13, 2002.
- Invited Participant, *Sandia Workshop on the Modeling and Simulation of Jointed Structures*, Albuquerque, NM, April 25–26, 2000.
- Invited Participant, *NSF Workshop for the Advancement and Retention of Underrepresented and Minority Engineering Educators—1999*, Washington, D.C., September 26–29, 1999.
- Invited Participant, *AFSOR Workshop on Dynamics and Control of Combustion Instabilities in Propulsion and Power Systems*, Pasadena, CA, November 20–22, 1997

Honors and Awards

College of Engineering Tau Beta Pi Outstanding Teacher Award—2005
NASA-OAI Collaborative Aerospace Research Summer Faculty Fellowship—1999
NASA-ASEE Summer Faculty Fellowship—1997,1998
Adviser to Ms. Laura Foster, recipient of the 1997 ASME Arthur Williston Award
National Science Foundation: Minority Graduate Fellowship
Ford Foundation Dissertation Fellowship: Honorable Mention
Graduate Engineering Minority Fellowship
Georgia Tech Presidential Scholar
National Merit Scholar
Cornell University: Harriet Davis Fellowship—teaching excellence in applied mathematics

Academic Service

Professional

Associate Editor, *ASME Journal of Computational and Nonlinear Dynamics*, 2011–2017.
Associate Editor, *Mathematical Problems in Engineering*, 2008–present.
Editorial Board, *Nonlinear Dynamics*, 2005–present.
Research Committee on the Mechanics of Jointed Structures, ASME Board on Research and Technology, Member (2010–present).
Associate Editor, *ASME Journal of Vibration and Acoustics*, 2003–2011.
Technical Committee on Vibration and Sound, ASME Design Engineering Division, Chair (2014–2016), Vice-chair (2012–2014), Secretary (2010–2012), Member (2004–2009).
Technical Committee on Micro- and Nano-scale Systems, ASME Design Engineering Division, Member (2006–2009).
Dynamics and Control of Structures and Systems Technical Committee, ASME Applied Mechanics Division, Member (1999–2008).
Conference Chair, *2nd Biennial International Conference on Dynamics for Design (DFD)*, 2014 ASME International Design Engineering Technical Conferences, Buffalo, New York USA, August 17–20, 2014.
General Conference Co-Chair, *2013 ASME International Design Engineering Technical Conferences (IDETC)*, Portland, Oregon USA, August 04–08, 2013.
Conference Chair, *25th Conference on Mechanical Vibration and Noise (VIB)*, 2013 ASME International Design Engineering Technical Conferences, Portland, Oregon USA, August 04–08, 2013.
Conference Chair, *1st Biennial International Conference on Dynamics for Design (DFD)*, 2012 ASME International Design Engineering Technical Conferences, Chicago, Illinois USA, August 12–15, 2012.
Conference Chair, *Special Conference on Mechanical Vibration and Noise (VIB)*, 2010 ASME International Design Engineering Technical Conferences, Montreal, QC Canada, August 15–18, 2010.
General Conference Technical Program Co-Chair, *2009 ASME International Design Engineering Technical Conferences (IDETC)*, San Diego, California USA, August 30–September 2, 2009.
Conference Technical Program Chair, *22nd Biennial Conference on Mechanical Vibration and Noise (VIB)*, 2009 ASME International Design Engineering Technical Conferences, San Diego, California USA, August 30–September 2, 2009.

Organizer, *System Identification and Reduced Order Modeling With Applications to Linear and Nonlinear Systems*, 21th Biennial Conference on Mechanical Vibration and Noise, ASME 2007 Design Engineering Technical Conferences, Las Vegas, Nevada USA, September 4–7, 2007.

Organizer, *Design, Dynamics and Controls of Micro/Nano Systems*, 2006 ASME International Mechanical Engineering Congress and Exposition, Chicago, IL. November 5–10, 2006.

Organizer, *System Identification and Reduced Order Modeling With Applications to Linear and Nonlinear Systems*, 20th Biennial Conference on Mechanical Vibration and Noise, ASME 2005 Design Engineering Technical Conferences, Long Beach, California USA, September 24–30, 2005.

Organizer, *System Identification and Reduced Order Modeling With Applications to Linear and Nonlinear Systems*, 19th Biennial Conference on Mechanical Vibration and Noise, ASME 2003 Design Engineering Technical Conferences, Chicago, Illinois USA, September 2–6, 2003.

Organizer, *Symposium on the Modeling and Simulation of Structures with Jointed Interfaces*, 18th Biennial Conference on Mechanical Vibration and Noise, ASME 2001 Design Engineering Technical Conferences, Pittsburgh, PA. September 9–12, 2001.

Co-organizer and Technical Committee, *U.S.-India International Workshop on the Elastic Vibrations, Smart Structures and Their Solutions Technologies*, Roorkee, India. January 2–5, 2001.

Technical Committee Member, *6th Biennial Symposium on Active Control of Vibration and Noise*, 2000 ASME Mechanical Engineering International Congress and Exposition, Orlando, FL. November 5–10, 2000.

Chair/Co-chair for numerous Conference Technical Sessions.

Panel Review Participant, National Science Foundation, 1998, 1999, 2001, 2004, 2006, 2008, 2009, 2010, 2011, 2013, 2014

Reviewer: AIAA Journal, AIAA Journal of Guidance, Dynamics, and Control, AIAA Journal of Propulsion and Power, ASME Journal of Applied Mechanics, ASME Journal of Computational and Nonlinear Dynamics, ASME Journal of Dynamic Systems, Measurement and Control, ASME Journal of Vibration and Acoustics, Cambridge University Press, Finite Elements in Analysis and Design, International Journal of Non-linear Mechanics, International Journal of Rotating Machinery, International Journal of Solids and Structures, ISA Transactions, Israel Science Foundation, Journal of Computational and Theoretical Nanoscience, Journal of Computing in Civil Engineering, Journal of Engineering Mechanics, Journal of Sound and Vibration, Journal of the Franklin Institute, Journal of Vibration and Control, Mechanics Research Communications, Nonlinear Dynamics, Physica D, Qatar National Research Foundation, SIAM Journal on Applied Mathematics, Shock and Vibration Digest.

University of Akron

University Faculty Senate, 2014–present;

Choose Ohio First Scholarship Committee, 2008–present;

University Fellowship Network, Committee for Nationally Competitive Scholarships, 2009–present;

Chair, Associate Dean Search Committee, Honors College, 2009;

University Graduate Curriculum Committee, 2006–2009;

University Faculty Rights and Responsibilities Committee, 2005–2008;

University Committee on Electronic Thesis and Dissertations, 1999–2000;

Faculty Search Committee, Department of Mathematics and Computer Science, Applied Math Division, 1999–2000, 2000–2001.

College of Engineering

Interim Assistant Dean of Research, College of Engineering, 2007–2009
Women in Engineering Advisory Board, 2009–present;
Strategic Planning Committee, 2003–present
Computer Resource Committee, 2004–present
Department of Civil Engineering RTP Committee, external member, 2002
Department of Electrical and Computer Engineering RTP Committee, external member,
2002
Dean’s Advisory Committee, 1997–2002
Ad hoc Committee on Distance Learning, 2000–2001
Ad hoc Committee for Computer Management, 2000–2001
Ad hoc Committee for Recruitment and Retention Committee, 1996–1997

Department of Mechanical Engineering

ABET Coordinator, Mechanical Engineering, 2006–2009
Chair, Department of Mechanical Engineering RTP Committee, 2003
ABET Committee Member, 2002–present
Organizer, Department of Mechanical Engineering Seminars, 1999–2004
Graduate Admissions, Department of Mechanical Engineering, 1998–present
Review Committee for Graduate Teaching Assistantships, 1998–2001
Faculty Search Committee, Department of Mechanical Engineering 1999–2000, 2002–2003,
2003–2004, 2006–2007, 2008–2009

Personal

Sex: Male
Nationality: United States of America (born: June 1969, Athens, GA)
Race: Native American (Lumbee)

Coach: Archbishop Hoban Boy’s Soccer, JV (2015–present).
Assistant Coach: Cornell Men’s Varsity Soccer (1993–1995).
Georgia Tech Men’s Soccer (1987–1991), Captain (1990–1991).
GFS Soccer Club (1995–present).
Roxxymoron (vocals, guitar, banjo, trumpet, cowbell).
