ACADEMIC PROCESSIONAL & CEREMONIAL CUSTOMS

The ceremonial customs of commencement, rooted in centuries-old tradition, are described below.

Processional

The academic processional is an official prelude to the commencement ceremony. The University marshal leads the procession, bearing the University Mace, which represents the authority of both the University and the state. Following the University marshal are the members of the platform party including trustees, recipient(s) of honorary degrees, and the president of the University who wears a medallion with inscriptions representing the history of the state and the University. Next come the members of the faculty followed by the degree candidates.

The marching order of candidates customarily reflects the historical order in which the various colleges or schools of the University were established. Led by marshals, the candidates for degrees march in with their respective colleges.

Academic Attire

The academic regalia worn at commencement are of medieval origin. The scholars of Bologna, Paris, Oxford, Cambridge and Heidelberg dressed in a manner to distinguish themselves from the merchants and other townspeople. When the universities first arose in the 11th century, "learned clerks" robed themselves in gowns, caps and hoods, thus signifying the distinction between "town" and "gown." As additional universities came into being, professors adopted distinctive forms of the gown and hood for bachelor's, master's, and doctoral degrees.

These customs are reflected in today's commencement attire. In Europe, a professor generally

wears the type of garment customary in the university where he or she is lecturing. In the United States, however, professors wear the gown and hood of the university where they earned their highest degree. All commencement ceremony participants at The University of Akron are attired in the appropriate academic apparel. University marshals are distinguished by their blue and gold robes and Elizabethan caps.

Caps and Tassels

The cap, also called the mortarboard, may have been derived from the squarish cap worn by the masons of the Middle Ages, or perhaps was suggested by the shape of the books which occupied so much of the scholar's time. In the United States, the cap is usually flat and square in shape. In Europe, one sometimes sees caps of other varieties. Attached to a button atop the mortarboard is a tassel: associates are often silver in color; bachelor's and master's are black or of a color appropriate to the college from which the candidate is being graduated; and doctor's are usually golden.

Gowns

Originally, the gown may simply have been a type of overcoat to protect the teacher from the cold in unheated buildings. The cut or style appears to derive from ecclesiastical attire and most often is black. The associates and bachelor's gowns generally have a closed front and open sleeves. The master's gown more often has long, closed sleeves, from which the arms extend through a slit at the wrist. The doctor's gown is faced down the front with velvet

panels and has bell-shaped sleeves adorned with three velvet bars.

Hoods

A triangular fold of cloth worn over the back of the gown, the hood is faced with colors which denote the field of study represented by the wearer's degree. The colors of the lining indicate the college or academic discipline in which the degree is granted. Recipients of the doctor of philosophy degree wear royal blue hoods, and their caps feature golden tassels. Those who have earned the doctor of education degree wear light blue hoods and tassels.

Colors

The various colleges and academic disciplines of The University of Akron are represented by the following hood and tassel colors:

| | |
|------------|--|
| Black | Applied Science and Technology, Bachelor's |
| Drab | Business |
| Gold | Polymer Science and Polymer Engineering |
| Green | Health Professions |
| Light Blue | Education |
| Orange | Engineering |
| Purple | Law |
| Silver | Applied Science and Technology and Wayne College Associate's |
| White | Arts and Sciences |

Banners

The impressive backdrop for the ceremony consists of the banners of the nine colleges and the Graduate School. Each banner bears the name and founding date of the college it represents. Banners were first instituted at The University of Akron in the spring of 1995.

The University Seal and the Presidential Medallion

A seal is an emblem, symbol or word that certifies or authenticates a document. The use of official seals dates back to the Norman Conquest in 1066. During the next century, seals were used throughout England to authenticate documents. Persons of rank had unique seals befitting their status. Most seals were circular or oval-shaped with heraldic designs embossed on their faces.

The use of seals became part of academic tradition in the medieval university and continues to the present. The University of Akron, for example, displays its seal on diplomas presented to its graduates.

The coat of arms shown on the University's seal includes an open book and quill, representative of the University's original liberal arts curriculum. A lamp of learning shown against a city skyline depicts the University's metropolitan setting. Three diagonal bars represent the private, municipal and state stages of the University's history. The phoenix, a mythical bird that is consumed by fire and rises from its ashes to achieve greater glory, is a tribute to the University's rebirth following the devastating fire of 1899. The seal also displays the original Buchtel College motto, *Fiat Lux* (let there be light).

The Presidential Medallion was presented by the Alumni Association in 1970, commemorating the University's centennial. The medallion is a symbol of the authority of the president, as bestowed by the Board of Trustees, that traditionally is worn by the president on important ceremonial occasions.

University Seal

The Ceremonial Mace

The Ceremonial Mace was presented to The University of Akron by the Alumni Association on Founders Day 1970, in recognition of the University's founding 100 years earlier as Buchtel College.

Since ancient times, maces have been symbols of authority for many academic and governmental bodies. The University of Akron's Ceremonial Mace is carried by the University marshal at all formal academic occasions.

The most distinguishing feature of the Ceremonial Mace is the aforementioned rising phoenix, an apt symbol for the University, which was rebuilt, through the generous support of alumni and the community, from the ashes of Buchtel College after it burned down in 1899.

THE UNIVERSITY OF AKRON: A PROUD TRADITION

The Ohio Universalist Convention established a small liberal arts college in Akron in 1870 and named it after one of the city's prominent industrialists, John R. Buchtel. It was Buchtel who led a group of 100 individuals and 13 businesses in a fundraising campaign to build the college. On July 4, 1871, thousands of citizens turned out to witness the results of that initiative, joining in a great celebration as the cornerstone was laid for a single but impressive structure that constituted Buchtel College.

Both a visionary and pragmatist, Buchtel believed that the vigor of any city is closely tied to the proximity of a high-quality institution of higher education. Decades of progress, both for the city and for the college he helped to launch, have proven him right.

Today, The University of Akron continues to invigorate the region, providing top-ranked and in-demand degree programs ranging from associate through doctoral degrees in the liberal arts, sciences, health care, engineering, business, law, education and more. Students gain real-world experience through internships, co-ops, study abroad and other career-focused learning opportunities.

Accredited by the Higher Learning Commission and classified at the highest level as a comprehensive, doctoral-degree-granting institution, the University serves students from all over the country and world through 11 colleges and schools on the main campus and through satellite campuses in Lakewood, Medina, Millersburg and Orrville. Today, more than 177,000 of its alumni live and work around the globe.

STATUE OF JOHN R. BUCHEL

THE ALMA MATER

Close be-side Cuya - ho - ga's wa - ters, Stream of am-ber hue,

O'er old Buch-tel Sum - mit's glo - ry Waves the gold and blue.

Chorus

Hail we Ak-ron! Sound her prais-es, Speed them on the gale,

Ev - er stand our Al - ma Ma - ter, Ak - ron hail, all hail!

The Alma Mater for The University of Akron was written by the Rev. Augustus B. Church, who was the last Universalist clergy to serve as president of Buchtel College (1901–1912). He was also the first person to assume the board responsibilities of chief executive officer. In fact, Church served both as president and as a trustee of the institution — as well as pastor of the First Universalist Church of Akron. Dr. Church understood the importance of higher education as a means to improve society, and he worked diligently on projects to successfully link the educational efforts of Buchtel College with the needs of a growing city. During his presidency, Buchtel College offered the world's first courses in rubber chemistry (1909).

This statue of John R. Buchtel stands in the middle of the campus he helped found in 1870.

The University of Akron's fight song, "The Akron Blue and Gold," was written in 1939 by Fred Waring, nationally known composer and leader of the wildly popular band, "Fred Waring and the Pennsylvanians." In response to a request from the University's student newspaper, Waring wrote "a distinctive song" for The University of Akron. "The Akron Blue and Gold" premiered over his NBC hookup on November 17, 1939, and has been used as the University's fight song ever since.
